ABOUT US

Besides these texturing industry which have undergone massive changes of old & gold original vanilla products, our industry has developed many different products, both on polyester & nylon and now many different deniers and fancy items are also being developed.

The group is renowned in textile industry since many years. The group has achieved several milestones and credit of these achievements goes to promoters.

Their group concerns are namely **M/s Chokshi Texlen Pvt. Ltd., M/s Kuber Texlen Pvt. Ltd., M/s Kuber Polytex India Pvt. Ltd.**

The promoters are well experienced in the line of textile industry. They have established good market relationship for selling the product in the local market through many brokers and agents. Though, there is tough competition in this industry, good customer service, quality of product would provide an edge over other competitors. The group is in the textile field since more than three decades with three brand name **Sruti, Chokshi & Kuber**. The group is considered to be leading group in surat with large manufacturing capacity of texturised yarn.

Sruti group are engaged in the business of manufacturing of polyester & nylon texturized yarn and other fancy & specialty yarns. With more than three decades of experience, we have been successfully catering to the varying needs of textile industry.

Committed to quality, we are providing an array of products and services for textile apparel industries. We believe in constant improvement and enjoy developing new products as per our customer's requirements and changing market demands. Reliability and superior quality standards set us apart from our competitors in the market.

The promoters of the group are considered to be pioneer in Surat texturing industry to introduce many such products and successfully delivering the same to many satisfied customer's.

Vision

To become one of the most admire and trusted integrated textile company in india. Our sole focus is to weaves symbiotic and mutually beneficial relationship, one at a time, with all our customers, agents and employees.

Mission

To set the global standard for excellence in the production of yarns, through absolute and continual commitment to superior quality. To meet customer requirements in an unparalleled and cost effective way. To become a process driven organization.

Quality Policy

Quality is the main focus of all our endeavors. We go the extra mile to make certain that we deliver finest quality yarns, which in turn helps us to satisfy our client demands successfully. To enhance customer satisfaction in terms of quality we constantly make improvements in our quality management system.

AIR TEXTURED YARN (ATY)

ATY is also called spun-like yarn. Owing to hairy feeling like natural cotton, it's also called cotton-like yarn. Polyester filament ATY is light weight, wear resistant, easy to clean and quick dry. The materials of our air textured yarn are 100% polyester. ATY can offer entirely different look and hand to any fabric. It can be used in very broad range of fabrics from simple lightweight fabric to very heavy duty soft luggage fabric. Several filament yarns can be mixed to construct the ideal ATY for a certain endues. ATY is a rather expensive yarn if the denier is low. But higher deniers compare very favorable with competitive spun yarns.

ATY yarns are made from POY. ATY is a yarn with zillions of small loops, which give it a distinct feeling and look whereas DTY is a yarn with preferably no loops at all. The loops in ATY contribute to the bulk and loft of a fabric, whereas in DTY the even crimp in every filament creates the bulk and volume of fabric.

FEATURE —

- ▶ All ATY produced on the latest high-speed draw texturing machines with identical capability.
- ▶ They are mainly micro multi filaments of 100 through 2800 denier in various choices.
- ▶ It is suitable for duty soft luggage fabrics and lightweight swim wear.

APPLICATION —

- ▶ It is suitable for fabric and uses like fashion apparel, sport wears, beach shorts, casual jackets, etc.
- ▶ We can supply you best quality polyester ATY in the below specifications.
